Report contents

Prepared for Synthetic QA fixture - not user data. Hellenistic framework: Aries rising, Day chart.

1. Natal chart wheel and technical foundation
2. Lunar return wheel, annual and active-month hierarchy, and governed contact lanes
3. Governed personalized interpretation
4. Sources, methodology, and calculation notes

How to use this report

Read the technical foundation before the later chapters. Each condition factor remains separate so one dignity, difficulty, or prominent placement cannot silently become the whole judgment.

Traditional doctrine boundary: the seven traditional planets govern rulership, dignity, sect, Lots, dispositorship, and time-lord technique. This report does not introduce modern psychological or evolutionary astrology. Uranus, Neptune, and Pluto are not included.

Governed interpretation passages are selected from the frozen chart facts and exact published content versions. Read their synthesis reasons and source index as the audit trail behind the prose.

Keep the lunar return distinct from the nativity. This record documents an exact recurrence and comparison frame; it does not turn one lunar cycle into an event forecast or automatic monthly verdict.

Introduction

This technical report preserves the selected lunar recurrence and location, establishes the superior annual and subordinate active-month profections at the exact return instant, and cross-references both lords to the distinct return chart before presenting the complete return ledger.

Priority synthesis

The main reading is organized by deterministic Hellenistic hierarchy. Synthesis 1.0.0; narrative 1.1.0; compound 1.0.0; compression 1.0.0; overview 1.0.0; conclusions 1.0.0; source index 1.0.0. Lower-priority governed material remains in the appendix.

What ties this reading together

The reading is anchored first by Jupiter as annual time lord, prioritized because annual time lord. The next structural anchor is Day chart, which brings chart backbone into the main interpretation. Jupiter in Whole Sign house 3 adds a third high-priority layer from planetary condition and placement. Jupiter in Gemini provides the next supporting anchor. The sections that follow unpack these anchors in order and preserve the lower-priority governed material in the reference appendix.

Chart backbone

Begin with the structure that organizes the rest of the nativity. The Ascendant establishes the Whole Sign chart, while sect changes the operating condition of the traditional planets. The later sections should be read through this foundation rather than as separate personality labels.

The strongest testimony here is Day chart because sect conditions the planetary team.

Day chart

A day chart has the Sun above the horizon. In the Hellenistic doctrine of sect, the Sun leads the diurnal team with Jupiter and Saturn; Jupiter is the benefic of sect and Saturn is the malefic of sect, while Venus and Mars belong to the contrary nocturnal team. This usually makes Jupiter's support and Saturn's capacity for constructive restraint easier to access, while Mars requires closer attention because its heat is contrary to sect. Mercury is variable and is judged by its relationship to the Sun and

the rest of the chart. Sect does not replace sign, house, dignity, or aspects; it changes the operating condition of the planets.

Why this is prioritized: Sect conditions the planetary team.

Planetary condition and placement

With the chart structure established, the traditional planets can be judged by sign and Whole Sign house. Their placements describe what each planet is trying to do, where it acts, and what support or complication its condition introduces.

The strongest testimony here is Jupiter in Whole Sign house 3 because annual time-lord natal condition. Read it together with Jupiter in Gemini, the next-highest ranked factor in this section.

Jupiter: sign and place

Read Jupiter as one placement. Its sign describes the planet's condition and mode of expression; its Whole Sign house identifies where that planetary agenda is carried into the life.

Jupiter in Gemini

Traditionally, Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Growth, counsel, justice, faith, protection, and prosperity are pursued through the Gemini style of speech, exchange, learning, multiplicity, and movement. Because Gemini is ruled by Mercury, the condition and placement of Mercury help determine whether Jupiter's topics are supported, redirected, or complicated. Jupiter is traditionally in detriment here. This is a condition judgment rather than a moral defect: the planet works opposite one of its domiciles and depends more heavily on the sign ruler and other support. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Why this is prioritized: Annual time-lord natal condition; Planet is in a prominent Whole Sign place.

Jupiter in Whole Sign house 3

The Whole Sign house 3 concerns siblings and close kin, local movement, messages, practical learning, and familiar religious observance. Jupiter tends to enlarge, protect, legitimize, counsel, or bring opportunity and assistance into this place. As a benefic, it often seeks to improve the affairs of the place, but its ability to do so depends on sect, dignity, rulership, aspects, and whether the house itself can support action.

Why this is prioritized: Annual time-lord natal condition; Planet is in a prominent Whole Sign place.

Planetary configurations

The planets do not operate independently. Their sign-based configurations show which planetary agendas cooperate, reinforce one another, compete, or require adjustment. These testimonies modify the placement meanings above rather than replacing them.

The strongest testimony here is Moon sextile Jupiter because natal configuration involving annual time lord. Read it together with Sun sextile Jupiter, the next-highest ranked factor in this section. Jupiter trine Saturn adds the next layer of supporting context. 2 additional featured statements develop the same section before lower-priority material moves to the appendix.

Moon sextile Jupiter

Moon signifies the body, nourishment, daily circumstance, change, reception, movement, and responsiveness, while Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Their sign-based sextile links signs of compatible polarity and traditionally indicates an opportunity for cooperation or exchange, though it still requires planets capable of using the connection. In Stelliums this is a sign-based Hellenistic aspect: it records whether the planets occupy signs that behold one another by conjunction, sextile, square, trine, or opposition. It does not claim an applying/separating condition or a degree-based orb. The final judgment depends on both planets' signs and Whole Sign houses, sect, dignity, rulership, solar condition where relevant, and other testimony in the nativity.

Why this is prioritized: Natal configuration involving annual time lord; Configuration involving a luminary.

Sun sextile Jupiter

Sun signifies authority, visibility, vitality, honor, leadership, and directed purpose, while Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Their sign-based sextile links signs of compatible polarity and traditionally indicates an opportunity for cooperation or exchange, though it still requires planets capable of using the connection. In Stelliums this is a sign-based Hellenistic aspect: it records whether the planets occupy signs that behold one another by conjunction, sextile, square, trine, or opposition. It does not claim an applying/separating condition or a degree-based orb. The final judgment depends on both planets' signs and Whole Sign houses, sect, dignity, rulership, solar condition where relevant, and other testimony in the nativity.

Why this is prioritized: Natal configuration involving annual time lord; Configuration involving a luminary.

Jupiter trine Saturn

Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority, while Saturn signifies constraint, delay, scarcity, labor, age, boundaries, solitude, endurance, and consolidation. Their sign-based trine links signs of the same element and traditionally supports ease of testimony, continuity, or mutual reinforcement between the planets. In Stelliums this is a sign-based Hellenistic aspect: it records whether the planets occupy signs that behold one another by conjunction, sextile, square, trine, or opposition. It does not claim an applying/separating condition or a degree-based orb. The final judgment depends on both planets' signs and Whole Sign houses, sect, dignity, rulership, solar condition where relevant, and other testimony in the nativity.

Why this is prioritized: Natal configuration involving annual time lord.

Mercury sextile Jupiter

Mercury signifies speech, writing, calculation, learning, trade, craft, interpretation, and mediation, while Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Their sign-based sextile links signs of compatible polarity and traditionally indicates an opportunity for cooperation or exchange, though it still requires planets capable of using the connection. In Stelliums this is a sign-based Hellenistic aspect: it records whether the planets occupy signs that behold one another by conjunction, sextile, square, trine, or opposition. It does not claim an applying/separating condition or a degree-based orb. The final judgment depends on both planets' signs and Whole Sign houses, sect, dignity, rulership, solar condition where relevant, and other testimony in the nativity.

Why this is prioritized: Natal configuration involving annual time lord.

Venus trine Jupiter

Venus signifies union, affection, pleasure, beauty, art, agreement, fertility, and social ease, while Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Their sign-based trine links signs of the same element and traditionally supports ease of testimony, continuity, or mutual reinforcement between the planets. In Stelliums this is a sign-based Hellenistic aspect: it records whether the planets occupy signs that behold one another by conjunction, sextile, square, trine, or opposition. It does not claim an applying/separating condition or a degree-based orb. The final judgment depends on both planets' signs and Whole Sign houses, sect, dignity, rulership, solar condition where relevant, and other testimony in the nativity.

Why this is prioritized: Natal configuration involving annual time lord.

Annual focus

For this profection year, Whole Sign house 9 and sagittarius are activated, making jupiter the annual time lord. The year is therefore read through that activated place and ruler before unrelated timing factors are considered.

The strongest testimony here is Jupiter as annual time lord because annual time lord. Read it together with House 9 annual profection, the next-highest ranked factor in this section. Sagittarius annual profection adds the next layer of supporting context.

Annual profection hierarchy

Read the profected house, activated sign, and annual time lord as one timing structure. The place identifies the year's activated topics, the sign identifies its ruler and mode, and the time lord carries that activation through the year.

House 9 annual profection

An annual profection to Whole Sign house 9 brings the topics of religion, divination, dreams, philosophy, advanced learning, and long journeys into the year's primary timing framework. The profected sign and its domicile ruler become especially important: that

ruler is the annual time lord, and its natal condition and current activations help describe how the year unfolds. A profection does not promise that every house topic will occur. It identifies a place and ruler that deserve priority when weighing the year's other testimony.

Why this is prioritized: Activated annual place.

Sagittarius annual profection

With Sagittarius activated by annual profection, the year is administered by Jupiter, the traditional domicile ruler of Sagittarius. The activated sign emphasizes a mode of expansion, doctrine, travel, counsel, and forward-looking judgment. This does not make the native “more Sagittarius” for the year. The sign identifies the ruler and manner of the profected place; the Whole Sign house being profected, the natal condition of Jupiter, and current testimony to that ruler carry the actual timing judgment.

Why this is prioritized: Activated annual sign.

Jupiter as annual time lord

Jupiter is the annual time lord because it rules the sign reached by profection. For the year, its natal promises and current condition become a primary timing reference. Jupiter traditionally signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Judge the year by where Jupiter is located natively, the houses it rules, sect, dignity, and current testimony to it; the title “time lord” does not make every generic Jupiter topic inevitable.

Why this is prioritized: Annual time lord.

What to carry forward

These takeaways restate the strongest governed relationships already established in the reading. They do not add a new astrological technique or prediction.

Keep the chart backbone first

Day chart is one of the highest-priority structural factors in this report. Use it as context for the later placements rather than reading those placements as isolated descriptions.

Read planetary condition with testimony

Jupiter in Whole Sign house 3 is a leading planetary placement in the report, while Moon sextile Jupiter is a leading configuration modifying planetary testimony. Keep condition, place, and configuration together rather than turning one factor into the whole interpretation.

Grounded in: Jupiter in Whole Sign house 3; Moon sextile Jupiter.

Watch these threads

For timing reports, these are the currently activated governed threads worth returning to. They indicate emphasis, not guaranteed events.

Annual activation

The annual timing framework is currently organized around Jupiter as annual time lord and House 9 annual protection. These are the timing factors to keep returning to before unrelated annual background testimony.

Grounded in: Jupiter as annual time lord; House 9 annual protection.

Reading order

Begin with the nativity and annual protected place. Place the active monthly profection inside that superior frame. Preserve both lords in the nativity, inspect their separate return positions, then read return Moon and Ascendant-ruler roles, activated-sign placements, and the two pairs of contact lanes.

Chart boundary

The annual and monthly protected places are natal. Return houses belong only to the return chart. Stelliums never equates house numbers across the two charts or merges them

into a composite.

Judgment boundary

Repeated rulers, activated signs, and contacts establish comparison evidence. They do not score the cycle, guarantee events, establish relocation outcomes, or replace natal promise.

Calculation notes

Synthetic QA fixture — not a user chart and never persisted as customer astrology.
