Report contents

Prepared for Synthetic QA fixture - not user data. Hellenistic framework: Aries rising, Day chart.

1. Natal chart wheel and technical foundation
2. Degree-sensitive natal aspect ledger
3. Governed personalized interpretation
4. Sources, methodology, and calculation notes

How to use this report

Read the technical foundation before the later chapters. Each condition factor remains separate so one dignity, difficulty, or prominent placement cannot silently become the whole judgment.

Traditional doctrine boundary: the seven traditional planets govern rulership, dignity, sect, Lots, dispositorship, and time-lord technique. This report does not introduce modern psychological or evolutionary astrology. Uranus, Neptune, and Pluto are not included.

Governed interpretation passages are selected from the frozen chart facts and exact published content versions. Read their synthesis reasons and source index as the audit trail behind the prose.

Read the natal aspect ledger in layers: sign eligibility first, exact geometry second, relative-speed phase third, and dexter direction last. Degree distance describes an eligible relationship; it does not create one by orb.

Introduction

This report freezes the selected natal revision and audits all twenty-one possible pairs among the seven traditional planets through the governed degree-sensitive aspect rules.

Planetary condition dossiers

Each planet is documented through separate layers of testimony. A sign relationship,

sect status, place class, bound, face, motion state, solar proximity, or joy never becomes a hidden total score.

Priority synthesis

The main reading is organized by deterministic Hellenistic hierarchy. Synthesis 1.0.0; narrative 1.1.0; compound 1.0.0; compression 1.0.0; overview 1.0.0; conclusions 1.0.0; source index 1.0.0. Lower-priority governed material remains in the appendix.

What ties this reading together

The reading is anchored first by Aries rising, prioritized because ascendant establishes the whole sign chart. The next structural anchor is Moon in Whole Sign house 1, which brings planetary condition and placement into the main interpretation. Moon in Aries adds a third high-priority layer from planetary condition and placement. Sun in Whole Sign house 5 provides the next supporting anchor. The sections that follow unpack these anchors in order and preserve the lower-priority governed material in the reference appendix.

Chart backbone

Begin with the structure that organizes the rest of the nativity. The Ascendant establishes the Whole Sign chart, while sect changes the operating condition of the traditional planets. The later sections should be read through this foundation rather than as separate personality labels.

The strongest testimony here is Aries rising because ascendant establishes the whole sign chart. Read it together with Day chart, the next-highest ranked factor in this section.

Aries rising

Aries rising makes Aries the first Whole Sign house and Mars the ruler of the Ascendant, giving Mars a central role in questions of body, temperament, vitality, and life direction. The first-house manner is shaped by initiation, urgency, competition, and direct action, but the condition of Mars shows how available or complicated that style is in practice. Because the Ascendant establishes the Whole Sign sequence, the entire chart must be judged from this starting point rather than treating the rising sign as a standalone personality label.

Why this is prioritized: Ascendant establishes the Whole Sign chart.

Day chart

A day chart has the Sun above the horizon. In the Hellenistic doctrine of sect, the Sun

leads the diurnal team with Jupiter and Saturn; Jupiter is the benefic of sect and Saturn is the malefic of sect, while Venus and Mars belong to the contrary nocturnal team. This usually makes Jupiter's support and Saturn's capacity for constructive restraint easier to access, while Mars requires closer attention because its heat is contrary to sect. Mercury is variable and is judged by its relationship to the Sun and the rest of the chart. Sect does not replace sign, house, dignity, or aspects; it changes the operating condition of the planets.

Why this is prioritized: Sect conditions the planetary team.

Planetary condition and placement

With the chart structure established, the traditional planets can be judged by sign and Whole Sign house. Their placements describe what each planet is trying to do, where it acts, and what support or complication its condition introduces.

The strongest testimony here is Moon in Whole Sign house 1 because luminary placement. Read it together with Moon in Aries, the next-highest ranked factor in this section. Sun in Whole Sign house 5 adds the next layer of supporting context. 9 additional featured statements develop the same section before lower-priority material moves to the appendix.

Moon: sign and place

Read Moon as one placement. Its sign describes the planet's condition and mode of expression; its Whole Sign house identifies where that planetary agenda is carried into the life.

Moon in Aries

Traditionally, Moon signifies the body, nourishment, daily circumstance, change, reception, travel, and responsiveness. Bodily rhythms, daily circumstances, nourishment, movement, and responsiveness are filtered through the Aries style of initiation, urgency, competition, and direct action. Because Aries is ruled by Mars, the condition and placement of Mars help determine whether Moon's topics are supported, redirected, or complicated. Moon has no major domicile or exaltation dignity here, so the condition of Mars becomes especially important. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Why this is prioritized: Luminary placement; Planet is in a prominent Whole Sign place.

Moon in Whole Sign house 1

The Whole Sign house 1 concerns life, body, temperament, appearance, and the native's manner of meeting the world. The Moon makes this place more changeable and lived through the body, routine, family, movement, or shifting circumstances. The final judgment depends on sign, ruler, sect relationship, aspects, and angularity; house placement alone is not a complete prediction.

Why this is prioritized: Luminary placement; Planet is in a prominent Whole Sign place.

Sun: sign and place

Read Sun as one placement. Its sign describes the planet's condition and mode of expression; its Whole Sign house identifies where that planetary agenda is carried into the life.

Sun in Leo

Traditionally, Sun signifies authority, visibility, honor, vitality, leadership, and the capacity to direct. Visibility, leadership, honor, and the need to direct are expressed through the Leo style of visibility, command, honor, steadiness, and self-direction. Because Leo is ruled by Sun, the condition and placement of Sun help determine whether Sun's topics are supported, redirected, or complicated. In traditional dignity doctrine, Sun is in domicile here, operating in one of its own signs and therefore with greater autonomy when the rest of the chart supports it. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Why this is prioritized: Luminary placement; Planet is in a prominent Whole Sign place.

Sun in Whole Sign house 5

The Whole Sign house 5 concerns children, pleasure, sexuality, celebration, creative acts, and circumstances that bring enjoyment or good fortune. The Sun tends to make this place more visible and ties authority, honor, direction, or recognition to it. The final judgment depends on sign, ruler, sect relationship, aspects, and angularity; house placement alone is not a complete prediction.

Why this is prioritized: Luminary placement; Planet is in a prominent Whole Sign place.

Mars: sign and place

Read Mars as one placement. Its sign describes the planet's condition and mode of expression; its Whole Sign house identifies where that planetary agenda is carried into the life.

Mars in Capricorn

Traditionally, Mars signifies heat, severing, conflict, courage, competition, urgency, injury, and forceful action. Action, courage, severing, conflict, competition, and urgency are expressed through the Capricorn style of structure, duty, endurance, material limits, and long-range construction. Because Capricorn is ruled by Saturn, the condition and placement of Saturn help determine whether Mars's topics are supported, redirected, or complicated. Mars is traditionally exalted here, an elevated condition that can make its significations prominent or capable, though the final judgment still depends on house, sect, aspects, and rulership. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Why this is prioritized: Planet is in a prominent Whole Sign place.

Mars in Whole Sign house 10

The Whole Sign house 10 concerns action, profession, reputation, rank, authority,

achievement, and what becomes publicly visible through the native's deeds. Mars brings heat, urgency, competition, separation, risk, conflict, or decisive action into this place. Mars is contrary to sect in a day chart and in sect in a night chart, so sect is especially important when judging how sharp, productive, or disruptive this placement becomes.

Why this is prioritized: Planet is in a prominent Whole Sign place.

Venus: sign and place

Read Venus as one placement. Its sign describes the planet's condition and mode of expression; its Whole Sign house identifies where that planetary agenda is carried into the life.

Venus in Libra

Traditionally, Venus signifies union, affection, pleasure, beauty, art, agreement, fertility, and social ease. Affection, agreements, pleasure, art, attraction, and social bonds seek expression through the Libra style of agreement, proportion, alliance, judgment, and social negotiation. Because Libra is ruled by Venus, the condition and placement of Venus help determine whether Venus's topics are supported, redirected, or complicated. In traditional dignity doctrine, Venus is in domicile here, operating in one of its own signs and therefore with greater autonomy when the rest of the chart supports it. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Why this is prioritized: Planet is in a prominent Whole Sign place.

Venus in Whole Sign house 7

The Whole Sign house 7 concerns marriage and partners, contracts, alliances, rivals, and people encountered directly across from the native. Venus tends to seek agreement, pleasure, attraction, artistry, relationship, and conditions of relative ease in this place. As a benefic, it often seeks to improve the affairs of the place, but its ability to do so depends on sect, dignity, rulership, aspects, and whether the house itself can support action.

Why this is prioritized: Planet is in a prominent Whole Sign place.

Jupiter: sign and place

Read Jupiter as one placement. Its sign describes the planet's condition and mode of expression; its Whole Sign house identifies where that planetary agenda is carried into the life.

Jupiter in Gemini

Traditionally, Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Growth, counsel, justice, faith, protection, and prosperity are pursued through the Gemini style of speech, exchange, learning, multiplicity, and movement. Because Gemini is ruled by Mercury, the condition and placement of Mercury help determine whether Jupiter's topics are supported,

redirected, or complicated. Jupiter is traditionally in detriment here. This is a condition judgment rather than a moral defect: the planet works opposite one of its domiciles and depends more heavily on the sign ruler and other support. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Why this is prioritized: Planet is in a prominent Whole Sign place.

Jupiter in Whole Sign house 3

The Whole Sign house 3 concerns siblings and close kin, local movement, messages, practical learning, and familiar religious observance. Jupiter tends to enlarge, protect, legitimize, counsel, or bring opportunity and assistance into this place. As a benefic, it often seeks to improve the affairs of the place, but its ability to do so depends on sect, dignity, rulership, aspects, and whether the house itself can support action.

Why this is prioritized: Planet is in a prominent Whole Sign place.

Mercury: sign and place

Read Mercury as one placement. Its sign describes the planet's condition and mode of expression; its Whole Sign house identifies where that planetary agenda is carried into the life.

Mercury in Leo

Traditionally, Mercury signifies speech, writing, calculation, learning, trade, craft, interpretation, and mediation. Thinking, speech, writing, calculation, trade, and interpretation operate through the Leo style of visibility, command, honor, steadiness, and self-direction. Because Leo is ruled by Sun, the condition and placement of Sun help determine whether Mercury's topics are supported, redirected, or complicated. Mercury has no major domicile or exaltation dignity here, so the condition of Sun becomes especially important. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Why this is prioritized: Planet is in a prominent Whole Sign place.

Mercury in Whole Sign house 5

The Whole Sign house 5 concerns children, pleasure, sexuality, celebration, creative acts, and circumstances that bring enjoyment or good fortune. Mercury brings calculation, speech, paperwork, commerce, learning, negotiation, or technical problem-solving into this place. Mercury is highly contextual and can take on the quality of planets it is configured with, so testimony from its ruler and close configurations matters.

Why this is prioritized: Planet is in a prominent Whole Sign place.

What to carry forward

These takeaways restate the strongest governed relationships already established in the reading. They do not add a new astrological technique or prediction.

Keep the chart backbone first

Aries rising is one of the highest-priority structural factors in this report. Use it as context for the later placements rather than reading those placements as isolated descriptions.

Grounded in: Aries rising.

Read planetary condition with testimony

Moon in Whole Sign house 1 is a leading planetary placement in the report. Keep condition, place, and configuration together rather than turning one factor into the whole interpretation.

Grounded in: Moon in Whole Sign house 1.

Reference appendix

These governed statements were selected by the template but ranked below the main reading. They remain here in their full governed form so the report preserves the complete source record.

Saturn in Whole Sign house 11

The Whole Sign house 11 concerns friends, allies, patrons, hopes, benefits, gains from others, and support that helps plans come to fruition. Saturn tends to slow, bind, formalize, isolate, burden, preserve, or demand sustained labor in this place. Saturn is in sect in a day chart and contrary to sect in a night chart, so sect is especially important when judging whether restraint becomes constructive endurance or heavier obstruction.

Saturn in Aquarius

Traditionally, Saturn signifies constraint, delay, scarcity, labor, age, boundaries, solitude, endurance, and consolidation. Duty, restraint, endurance, scarcity, boundary-setting, and consolidation are worked out through the Aquarius style of systems, principles, collective structures, distance, and durable ideas. Because Aquarius is ruled by Saturn, the condition and placement of Saturn help determine whether Saturn's topics are supported, redirected, or complicated. In traditional dignity doctrine, Saturn is in domicile here, operating in one of its own signs and therefore with greater autonomy when the rest of the chart supports it. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Moon sextile Jupiter

Moon signifies the body, nourishment, daily circumstance, change, reception, movement, and responsiveness, while Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Their sign-based sextile links signs of compatible polarity and traditionally indicates an opportunity for cooperation or exchange, though it still requires planets capable of using the connection. In Stelliums this is a sign-based Hellenistic aspect: it records whether the planets occupy signs that behold one another by conjunction, sextile, square, trine, or opposition. It does not claim an applying/separating condition or a degree-based orb. The final judgment

depends on both planets' signs and Whole Sign houses, sect, dignity, rulership, solar condition where relevant, and other testimony in the nativity.

Reading order

Begin with traditional sign eligibility, then inspect exact angular deviation, relative-speed phase, degree relationship, dexter direction, and the natal sign and Whole Sign house of both planets.

Doctrine boundary

Degree distance measures an already eligible traditional sign relationship. It never creates an aspect by orb. The report does not add modern aspects, moiety, refranation, collection, translation, enclosure, an aspect score, or an event verdict.
