4. Sources, methodology, and calculation notes

How to use this report

Read the technical foundation before the later chapters. Each condition factor remains separate so one dignity, difficulty, or prominent placement cannot silently become the whole judgment.

Traditional doctrine boundary: the seven traditional planets govern rulership, dignity, sect, Lots, dispositorship, and time-lord technique. This report does not introduce modern psychological or evolutionary astrology. Uranus, Neptune, and Pluto are not included.

Governed interpretation passages are selected from the frozen chart facts and exact published content versions. Read their synthesis reasons and source index as the audit trail behind the prose.

Read each twelfth-part as secondary testimony after the natal placement. Dorothean and Paulus remain separate named methods; neither is silently preferred, merged, or scored.

Introduction

This technical natal report preserves the exact seven-planet natal frame and calculates both named twelfth-part methods without selecting a preferred result. Each derived longitude remains beside its natal source, Whole Sign place, domicile ruler, formula, and versioned calculation contract.

Reading order

Establish the natal planet first, inspect the Dorothean and Paulus ledgers separately, then compare where each derived sign and place carries secondary testimony inside the unchanged nativity.

Method boundary

The report does not merge, average, rank, score, or silently substitute the two methods. A twelfth-part does not replace the natal placement, create a second planet, establish a new nativity, or promise an event.
