How to use this report

Read the technical foundation before the later chapters. Each condition factor remains separate so one dignity, difficulty, or prominent placement cannot silently become the whole judgment.

Traditional doctrine boundary: the seven traditional planets govern rulership, dignity, sect, Lots, dispositorship, and time-lord technique. This report does not introduce modern psychological or evolutionary astrology. Uranus, Neptune, and Pluto are not included.

Governed interpretation passages are selected from the frozen chart facts and exact published content versions. Read their synthesis reasons and source index as the audit trail behind the prose.

Read bounds and faces as two separate degree-based testimonies. Egyptian bounds use unequal intervals; Chaldean faces divide each sign into three equal decans. Every upper endpoint is exclusive, adjacent rulers are never blended, and no testimony becomes a score.

Introduction

This technical report freezes the selected natal revision and resolves Egyptian bounds and Chaldean faces independently for all seven traditional planets.

Every upper endpoint is exclusive: a planet exactly on an endpoint enters the segment beginning at that degree. Proximity never blends, transfers, weakens, or strengthens rulership.

Method boundary: this report records minor-dignity hosts at exact degrees. It does not blend adjacent segments, treat proximity as shared ownership, rank planets, calculate dignity points or an aggregate strength score, replace broader planetary condition judgment, or predict events.

Personalized interpretation

Sun in Leo

Traditionally, Sun signifies authority, visibility, honor, vitality, leadership, and the capacity to direct. Visibility, leadership, honor, and the need to direct are expressed through the Leo style of visibility, command, honor, steadiness, and self-direction. Because Leo is ruled by Sun, the condition and placement of Sun help determine whether Sun's topics are supported, redirected, or complicated. In traditional dignity doctrine, Sun is in domicile here, operating in one of its own signs and therefore with greater autonomy when the rest of the chart supports it. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Moon in Aries

Traditionally, Moon signifies the body, nourishment, daily circumstance, change, reception, travel, and responsiveness. Bodily rhythms, daily circumstances, nourishment, movement, and responsiveness are filtered through the Aries style of initiation, urgency, competition, and direct action. Because Aries is ruled by Mars, the condition and placement of Mars help determine whether Moon's topics are supported, redirected, or complicated. Moon has no major domicile or exaltation dignity here, so the condition of Mars becomes especially important. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Mercury in Leo

Traditionally, Mercury signifies speech, writing, calculation, learning, trade, craft, interpretation, and mediation. Thinking, speech, writing, calculation, trade, and interpretation operate through the Leo style of visibility, command, honor, steadiness,

and self-direction. Because Leo is ruled by Sun, the condition and placement of Sun help determine whether Mercury's topics are supported, redirected, or complicated. Mercury has no major domicile or exaltation dignity here, so the condition of Sun becomes especially important. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Venus in Libra

Traditionally, Venus signifies union, affection, pleasure, beauty, art, agreement, fertility, and social ease. Affection, agreements, pleasure, art, attraction, and social bonds seek expression through the Libra style of agreement, proportion, alliance, judgment, and social negotiation. Because Libra is ruled by Venus, the condition and placement of Venus help determine whether Venus's topics are supported, redirected, or complicated. In traditional dignity doctrine, Venus is in domicile here, operating in one of its own signs and therefore with greater autonomy when the rest of the chart supports it. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Mars in Capricorn

Traditionally, Mars signifies heat, severing, conflict, courage, competition, urgency, injury, and forceful action. Action, courage, severing, conflict, competition, and urgency are expressed through the Capricorn style of structure, duty, endurance, material limits, and long-range construction. Because Capricorn is ruled by Saturn, the condition and placement of Saturn help determine whether Mars's topics are supported, redirected, or complicated. Mars is traditionally exalted here, an elevated condition that can make its significations prominent or capable, though the final judgment still depends on house, sect, aspects, and rulership. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Jupiter in Gemini

Traditionally, Jupiter signifies growth, justice, counsel, faith, prosperity, generosity, protection, and legitimate authority. Growth, counsel, justice, faith, protection, and prosperity are pursued through the Gemini style of speech, exchange, learning, multiplicity, and movement. Because Gemini is ruled by Mercury, the condition and placement of Mercury help determine whether Jupiter's topics are supported, redirected, or complicated. Jupiter is traditionally in detriment here. This is a condition judgment rather than a moral defect: the planet works opposite one of its domiciles and depends more heavily on the sign ruler and other support. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Saturn in Aquarius

Traditionally, Saturn signifies constraint, delay, scarcity, labor, age, boundaries, solitude, endurance, and consolidation. Duty, restraint, endurance, scarcity,

boundary-setting, and consolidation are worked out through the Aquarius style of systems, principles, collective structures, distance, and durable ideas. Because Aquarius is ruled by Saturn, the condition and placement of Saturn help determine whether Saturn's topics are supported, redirected, or complicated. In traditional dignity doctrine, Saturn is in domicile here, operating in one of its own signs and therefore with greater autonomy when the rest of the chart supports it. Stelliums treats sign placement as one layer of the nativity: Whole Sign house, sect, aspects, solar condition, motion, and rulership can substantially alter the manifestation.

Reading order

Read exact position first, then the unequal Egyptian bound, then the equal Chaldean face. Preserve interval distances and own-ruler flags as separate facts before returning to broader planetary condition.

Doctrine boundary

The report never blends adjacent rulers, converts testimony into dignity points, ranks planets, replaces wider condition judgment, or predicts events.
